#### **Profile**

An eager software developer with a strong interest in projects that require both conceptual and analytical thinking. Fully-committed to designing and developing innovative web-based materials that users will love. Always eager to learn more tricks from anyone - regardless of the industry they're working in.

### **Technical Skills**

Swift Grunt

Xcode Git/Github

Javascript JQuery

Python Django

SQL Bower/NPM

AngularJS Firebase

## **Experience**

Jr. Web Developer, NSS

2016-Present

- Daily hands on application of OOP fundamentals through group and individual projects.
- Created single page applications in JavaScript in the Angular framework as well as HTML, CSS, Bootstrap, and Materialize.
- Worked with jQuery for JavaScript libraries
- Utilized Grunt to automate bundling of modules, JavaScript linting, and compiling Sass
- Project management/tracking with Trello and GitHub Issue Tracking
- Solution Design: white-boarding and wireframes
- Leveraged Django for creating and editing MVC applications
- Deployed applications through Firebase, GitHub and Digital Ocean
- Source code/version control with Git/GitHub
- Created servers and RESTful API's with Django REST framework
- Retrieved and stored database information in Firebase and SQLite and Postgresql
- Practiced TDD with Python's unit test framework

Account Executive: M&A Insurance,

BLR. Comcast. Dell

2010-2016

- Technical sales roles, requiring an in-depth knowledge of all products and services offered
- Excelled at communicating value to all levels of organizations, both technical and business
- Negotiated contracts for consumers up to C-level clients

### **Awards**

Army Commendation Medal

2005

Army Medal of Achievement

2005

## **Projects**

#### INGREDIENT FINDER ANGULAR

Front-end capstone project using Angular 1 to allow users the ability to save ingredients they find at local stores. Features GoogleMaps API and connects to Firebase.

#### COMIC STORE

Back-end capstone using Django to build an e-commerce website, styled by Bootstrap. This project can take CC payments through integration with Stripe.
