## Profile

An eager software developer with a strong interest in projects that require both conceptual and analytical thinking. Fully-committed to designing and developing innovative web-based materials that users will love. Always eager to learn more tricks from anyone - regardless of the industry they're working in.

## Technical Skills

| | |
|---|---|
| Swift | Salesforce |
| Xcode | Git/Github |
| Javascript | JQuery |
| Python | Django |
| SQL | Bower/NPM |
| AngularJS | Firebase |

## Experience

### Jr. Web Developer, NSS                     2016-Present

- Daily hands on application of OOP fundamentals through group and individual projects.
- Created single page applications in JavaScript in the Angular framework as well as HTML, CSS, Bootstrap, and Materialize.
- Worked with jQuery for JavaScript libraries
- Utilized Grunt to automate bundling of modules, JavaScript linting, and compiling Sass
- Project management/tracking with Trello and GitHub Issue Tracking
- Solution Design: white-boarding and wireframes
- Leveraged Django for creating and editing MVC applications
- Deployed applications through Firebase, GitHub and Digital Ocean
- Source code/version control with Git/GitHub
- Created servers and RESTful API's with Django REST framework
- Retrieved and stored database information in Firebase and SQLite and Postgresql
- Practiced TDD with Python's unit test framework

### Account Executive: M&A Insurance, BLR, Comcast, Dell              2010-2016

- Technical sales roles, requiring an in-depth knowledge of all products and services offered
- Excelled at communicating value to all levels of organizations, both technical and business
- Heavy Salesforce experience, including providing feedback for processes and usability.

## Awards

Army Commendation Medal                     2005

Army Medal of Achievement                     2005

## Projects

TrentSnaps
A Swift App using CocoaPods & Firebase to replicate the services offered by SnapChat. Users can take a photo, send to another registered user, and the photo will be deleted after viewing.
https://github.com/TrentHand/Swift_TrentSnaps

BookCollector
Swift App allowing a user to take a photo with their phone of books they own, then save them in the app. I built this so I could remember if I already owned a book while shopping at McKay's.
https://github.com/TrentHand/Swift_Book_Collector
